AREA, HOUSES AND POPULATION.

THIS table shows for each district and the State of Manipur the area, the number of towns and villages, the number of occupied houses, and the total urban and rural population, male and female. The districts are arranged in this and other tables in the order prescribed by Government.

The areas given have been obtained from the District Gazetteers under the orders of Government: where they differ from those given in 1901, the change is due to revised survey: the area shown for Naga Hills, which is the same as in 1901, is for the surveyed area only and excludes the previously unadministered territory added since 1901, the area of which is unknown.

For the purpose of column 3 (number of towns) cantonments have been treated as forming part of the municipalities which they adjoin.

NOTE.—Similar statistics for areas smaller than districts are contained in Provincial Table I, which is printed at the end of the Imperial Tables.

T A B L E II.

VARIATION IN POPULATION SINCE 1872.

THIS table compares the population as now ascertained with that of the four previous censuses. The figures for the latter in some districts differ slightly from those shown in the old Census Reports. This is due to subsequent changes of jurisdiction, *i.e.*, transfers of area from one district to another. The effect of these changes on the population of the districts concerned has been calculated, and the figures have been adjusted accordingly.

The following are the districts which have undergone changes of jurisdiction :—

Between 1872 and 1881—

Goalpara.

Between 1891 and 1901—

Naga Hills, Goalpara, Darrang, Nowgong and Sibsagar.

In columns 19, 20 and 21 the variations shown against the Province, British Territory, Surma Valley and Hill Districts and Manipur are the variations of the total population shown against them and not the sum of the variations of their districts. Both Lushai Hills and Manipur were excluded from the census of 1872, and in 1881 Manipur alone was enumerated; in 1891 the census papers of Manipur were destroyed in the insurrection, while the Lushai Hills was not censused but an estimate was formed of the population of the northern portion, which was the only part then in Assam.

The variation shown against Naga Hills between 1901 and 1911 is mainly due to the addition of territory unadministered in 1901, *viz.*, the Sema and Eastern Angami villages, with a population of 39,586 persons.

NOTE.—Similar statistics for areas smaller than districts are contained in Provincial Table I, which is printed at the end of the Imperial Tables.

TOWNS AND VILLAGES CLASSIFIED BY POPULATION.

In this table, as in Tables I and IV, cantonments have been treated as forming part of the municipalities which they adjoin.

In Cachar, Kamrup, Darrang, Nowgong, Sibsagar and Lakhimpur and in the valley of the State of Manipur the cadastral village has been taken as the village. Elsewhere it is the residential village or group of houses bearing a separate name; small outlying hamlets have been treated as part of the main residential village to which they appertain.

TABLE IV.

POPULATION OF TOWNS WITH VARIATION SINCE 1872.

THE table shows the population of all municipalities, unions and cantonments and also of certain other places (chiefly subdivisional headquarters) which are of an urban character, though not under municipal government.

The population of the cantonments, which has been added to that of the towns which they adjoin, is shown below:—

CANTONMENT.				Town with which included.	Persons.	Males.	Females.
Shillong	Shillong ...	2,511	1,661	850
Kohima	...	-	...	Kohima ..	322	288	34
Dibrugarh	Dibrugarh ...	730	586	144
Imphal	Imphal ...	1,063	827	236

The population of the towns of Shillong, Tezpur and Imphal as returned at previous enumerations has been adjusted on account of subsequent changes in boundaries. The figures now given represent the population of the area now included in each municipality or town.

It has been found impossible to ascertain the former population of places now treated as towns for the first time; Hailakandi and Nazira Unions are treated as towns now for the first time.

TABLE VII.

AGE, SEX AND CIVIL CONDITION.

THIS table is divided into two parts : *Part A* shows the distribution, for the Province as a whole, of the total population and of each religion by age, sex and civil condition. *Part B* shows the distribution for districts and Manipur State of the total population and of the main religions by age, sex and civil condition ; but in this part, in order to economise space, the age statistics have been given in less detail than in the provincial summary.

TABLE VIII.

EDUCATION BY RELIGION AND AGE.

THIS table, like Table VII, is divided into two parts. *Part A* shows the extent of literacy in the Province as a whole amongst the total population and for each religion returned; *Part B* gives details, for Districts and Manipur State, of the total population and of each main religion.

The table shows the number of persons literate in any language as well as those literate in English, the figures in columns 12 to 14 being included in those in columns 6 to 8.

The following statement shows the literates among Indian Christians and other Christians separately:—

Race.	Population.									Literate in English.

TABLE IX.

EDUCATION.

BY SELECTED CASTES, TRIBES OR RACES.

THIS table repeats the information given in Table VIII in respect of education with this difference that, whereas in that table the population is distributed by age and religion, it is here arranged according to caste or tribe. Moreover in Table VIII the whole population is dealt with, but this table refers only to selected castes and tribes ; the minor castes and tribes have been left out of account altogether, and even those selected for inclusion have been taken only for the districts where they were specially numerous. To save space, figures have been given, not for each district separately, but for groups of districts, the local conditions of which may be presumed to be fairly uniform.

It may be explained that the total district strength of a caste in this table does not necessarily tally with that in Table XIII and Table XII-A, as the latter include and exclude figures added and subtracted in the course of classification, which the present table does not.

LANGUAGE.

In this table the languages returned at the census are arranged under the following headings :—

- | | | |
|---|-----|--|
| A. Vernaculars of India | ... | { (1) Aryan.
(2) Tibeto-Burman.
(3) Siamese-Chinese.
(4) Mon-Khmer.
(5) Munda.
(6) Dravidian. |
| B. Vernaculars of Asiatic countries beyond India. | | |
| C. European languages. | | |

Languages which are either numerically insignificant or too localized for separate entry are grouped together under the head "Others." Details of these minor languages are given in Appendix I printed at the end of the table. A classification of languages by linguistic families will be found in Chapter IX of the Report. Appendix II gives the details of the dialects shown together as Naga unclassified.

TABLE XII.

INFIRMITIES.

THE infirmities recorded at the census were insanity, deaf-mutism, blindness and leprosy.

The Table is divided into two parts—Part I shows the distribution of the persons afflicted according to age, and Part II their distribution according to locality.

Some unfortunate persons were returned as suffering from more than one infirmity. In the Table they have been shown under each. This explains why the total afflicted in columns 2, 3 and 4 does not quite agree with the total of the figures for each separate infirmity. The following is a list of these multiple entries :—

	Total.	Males.	Females.
Insane and blind	9	4	5
Insane and lepers	3	2	1
Insane and deaf-mutes	61	34	27

T A B L E XIII.

CASTE.

THIS Table is divided into two parts : Part A deals with the Castes and Tribes of Hindus, Animists, Buddhists, Jains, Sikhs and Brahmans, and Part B with those of Muhammadans. The figures for Christians are omitted from this Table, as they are specially dealt with in Tables XVII and XVIII. There are two appendices to the Table, (I) showing the details grouped together under 'Minor Castes' in the alphabetical arrangement, and (II) showing the individual tribes composing the totals of Kukis, Lushais and Nagas given in the Table.

As a rule, persons converted from Hinduism or Muhammadanism to Christianity were returned as "Desi Christian" and their caste of origin was not mentioned in the Census Schedules. In the case of converts belonging to aboriginal tribes, however, the name of the tribes was frequently given, and the number so returned has been noted, wherever possible, for each tribe in the remarks column of the Table.

Where some members of a caste or tribe profess one religion and some another, separate figures have usually been given for each; but if the second religion was returned only in one or two districts, the figures for it have been added to those for the main religion, and the number so added has been noted in the column of remarks.

It is often very difficult to decide whether a group constitutes a separate caste or is a sub-caste of some other caste. The procedure that has been followed in each case is explained in the remarks column.

As far as possible, items that are not true castes have been eliminated from the return and added to the castes to which they appeared to belong after such enquiries, local and otherwise, as it was possible to make within the limited time available. The more important of these items are mentioned in the remarks column.

TABLE XIV.

CIVIL CONDITION BY AGE FOR SELECTED CASTES.

THIS Table, like Table IX, deals not with the whole population, but with certain selected castes in certain districts, or parts of districts, where they are specially numerous. This Table is intended to illustrate the relative prevalence of infant-marriage, etc. The strength of each caste or tribe is the same as given in Table IX and not as modified by classification for Table XIII.

T A B L E X V.

OCCUPATIONS.

For the purpose of this Table, a new scheme of classification of occupations, based on that drawn up by M. Bertillon, has been framed by the Census Commissioner. All occupations are divided, according to this scheme, into four main classes and subdivided into 12 sub-classes, 55 orders and 169 groups.

The Table is divided into four Parts, A, B, D and E. Part A is subdivided into two sections: the first section contains a general summary giving the total strength of each group, order, sub-class and class for (1) Assam, (2) British Territory and (3) Manipur State: the second section gives for each district and for Manipur State the total strength of each order and detailed statistics of those groups, the strength of which reaches 500 in any district except group 145, the strength of which in Manipur State is 370. Part B shows the subsidiary occupations of those persons whose main occupation is agriculture. Part C (combined occupations), which was optional, did not contain statistics of any importance and has been omitted for this province. Part D shows the distribution of occupations by religion. Part E embodies the results of the Industrial Census and its scope is explained in the title page prefixed to it.

THIS Table furnishes statistics of industrial concerns, such as tea-gardens, mines, mills, factories, etc., in which twenty persons or more were employed on the day of the census. It is divided into four parts. Part I shows for the Province as a whole the number of persons employed in each kind of industry distinguishing between industrial concerns in which mechanical power is used and those in which it is not, and classifying them according to the number of persons employed. Part II gives for each district the number of persons employed in each industry without these details. Part III and IV show the castes and races of the owners and managers of industries that are of special importance, *i.e.*, tea, coal and oil, in Assam.

BY SELECTED CASTES, TRIBES OR RACES.

IN this Table statistics are given of the occupations of selected castes and races in areas where they are especially numerous or otherwise important. The occupations are arranged under 13 main heads corresponding to the sub-classes of the scheme of classification adopted in Table XV-A: these heads have been subdivided, where necessary, in order to distinguish between different occupations. Columns 7 to 10 are intended to throw light on the extent to which traditional caste occupations are followed, while columns 11 and 12 are designed to make it possible to discount the tendency of functional castes to return their traditional occupations as their means of livelihood. The figures in the subsequent columns are exclusive of the number shown in columns 7 and 8 as following the traditional occupation.

The appendix at the end of the table shows, for a few important occupations, the distribution by caste of Hindus and by religion of members of other religions, who were returned as actual workers.

TABLE XVII.

CHRISTIANS BY SECT AND RACE.

THIS Table shows the sects of Christians of all races. Armenians have been classed under the head "European and allied races": they are shown separately in Table XVIII. The Feringis of Assam, who have been treated as Anglo-Indians for the purpose of this Table, number 5 (4 males and 1 female): they are Roman Catholics and were enumerated in Sylhet district.

PROVINCIAL TABLE I.

AREA AND POPULATION OF THANAS, MAUZAS, ETC.

In all districts the district figures and those of subdivisions where they exist have been given. Thanas or out-posts have been shown in the Surma Valley and Goalpara, except in the Eastern Duars of the latter district where each Duar is shown: in the remaining districts of the Assam Valley mauzas have been shown thanawari under the orders of Government. Of the hill districts, in Khasi and Jaintia Hills separate figures have been given for the areas under Seims, Lyngdohs, Wahadadars, Dolois and Sirdars, while mauza figures have been given in the case of Garo Hills: in Lushai Hills and Naga Hills only subdivisions are shown. In Manipur State the Valley and Hill sections have been shown separately and are divided into panahs and lams. The areas of the districts have been taken from the District Gazetteers under the orders of Government (*vide* title page of Imperial Table I): those of lesser units have been supplied by the local authorities and their totals do not necessarily agree with the district figures.

All districts and the State of Manipur have been supplied with Village Census Tables in manuscript showing the population by sex and religion of every village, arranged according to the local unit of administration.

PROVINCIAL TABLE II.

POPULATION OF THANAS, ETC., BY RELIGION AND EDUCATION.

In this Table thanas and outposts have been shown except in the hill districts and Manipur : in the latter subdivisions have been shown except in Garo Hills, where mauzas have been given, and Manipur, where figures for panahs and lams have been exhibited.

It should be noted that totals of the figures for those literate and literate in English in minor divisions do not equal the totals of the districts, because only the latter include Christians, Buddhists and "other" religions, while the former include Hindus, Muhammadans and Animists only.

Village population by religion has been given in the Village Census Tables supplied in manuscript to each district and the State of Manipur.

PROVINCIAL TABLE V.

TEA-GARDEN POPULATION BY CASTE.

THIS Table and the two previous Tables deal with the tea-garden population of each district.

This Table has been arranged in the same manner as Imperial Table XIII, and is divided into two parts, of which Part A includes all castes except Muhammadans and Part B contains Muhammadans only: Christians have not been included. In the appendix are shown the details of 'Minor Castes' grouped together in the alphabetical arrangement of the Table.
