TABLE I.

AREA, HOUSES AND POPULATION.

1. This table shows for each district the area, the number of towns and inhabited villages, the number of occupied houses and the total urban and rural population, male and female.

2. During the decade (1901—1911) a general re-adjustment of districts was effected on an extensive scale. The district of Lingsugur was abolished and its taluks transferred to Raichur and Gulbarga districts. The districts of Sirpur-Tandur, Elgandal and Indur have been designated as Adilabad, Karimnagar and Nizamabad respectively.

3. The difference between the areas here shown and those in the corresponding table of 1901 is due to inter-district charges referred to in 2 *supra*.

4. The Cantonment of Secunderabad including Bolarum, and the Residency Bazars have been treated as part of Hyderabad City; and the Cantonment of Aurangabad, as part of the town of Aurangabad.

Details of the area and population of these three localities under British administration are given below:—

Locality.	Area in sq. miles.	Occupied houses.	Persons.	Males.	Females.
Residency Bazars	534	4,089	17,971	9,504	8,467
Secunderabad including Bolarum cantonment	17.17	24,566	113,490	60,755	52,735
Aurangabad Cantonment	3.53	2,786	11,953	6,699	5,254

5. The main statistics for Tahsils will be found in Provincial Tables I and II at the end of the volume.

TABLE II.VARIATION IN POPULATION SINCE 1881.

This table compares the population as now ascertained with that of the three previous Censuses. The figures for the latter differ from those shown in the Reports of those Censuses owing to the reconstitution of districts during the decade 1901—1911. The effect of changes on the population of districts brought about by inter-district transfers has been calculated, and the figures have been adjusted accordingly.

II. During the decade, besides numerous other changes, the district of Lingsugar was abolished and its taluks transferred to Gulbarga and Raichur districts. The district of Adilabad was enlarged by the addition of taluks from its adjoining districts. The old districts of Elgandal, Sirpur-Tandur and Indur have been designated as Karimnagar, Adilabad and Nizamabad respectively.

TABLE IV.

TOWNS CLASSIFIED BY POPULATION WITH VARIATION SINCE 1881.

1. Sagar and Hasanparti are now excluded as no longer coming under the category of a town.
2. Nine new towns (marked with an asterisk) are included in the Table, and figures for these for previous censuses are given from village list.
3. The figures for Yadgir for last decade are revised figures as those given for previous censuses are incorrect.
4. The town of Hanamkonda includes certain villages situated within its municipal limits which were not included before and the figures for previous censuses have been adjusted accordingly.
5. The population of troops numbering 4,698 stationed in Fort Golconda (Muhammadnagar) is included in the city population. Hence the number of inhabitants for that town appears to be far below the standard.
6. Hyderabad City and Aurangabad include cantonments. The units composing them are detailed below:—

1. Hyderabad	Persons.	Males.	Females.
City ...	365,964	186,162	178,902
Golconda Troops ...	4,098	2,033	2,065

Cantonment ...	11,953	6,699	5,254

7. As regards those towns for which figures for 1881 (column 7) or for 1881 and 1891 (columns 7 & 6) are not available, the variation shown in column 11 is for the period 1891—1911 or 1901—1911.

TABLE XII.

INFIRMITIES.

Part I.—Distribution by Age.

Part II.—Distribution by Districts.

1. The infirmities recorded at the census were insanity, deaf-mutism, blindness and leprosy.

2. The table is divided into two parts—Part I shows the distribution of the persons afflicted according to age, and Part II their distribution according to locality. In 1901 Part II of the table was not prepared for districts.

3. Some unfortunate persons were returned as suffering from more than one infirmity. In the table they have been shown under each. This explains why the total "Population afflicted" in columns 2, 3 and 4 does not quite agree with the total of the figures for each separate infirmity. The following is a list of these double entries :—

INFIRMITIES.						Persons.	Males.	Females.

TABLE XV.

OCCUPATION OR MEANS OF LIVELIHOOD.

PART A --GENERAL TABLE.

1. For the purpose of this table, a classified scheme of occupations based on that drawn up by M. Bertillon has been framed by the Census Commissioner. All occupations are divided into 4 main classes, and sub-divided into 12 sub-classes, 55 orders and 169 groups.

2. The table comprises 5 parts, A. B. C. D. and E. Part A. deals with the whole population of the State by city and districts. Part B. shows the subsidiary occupations of the actual workers among the agriculturists only. Part C. contains information as to the strength returned for certain mixed occupations. Part D. purposes to show distribution by religion of the total population for the State and for the City. Part E. embodies the results of the Industrial Census and its scope is explained in the title page prefixed to it.

PROVINCIAL TABLE I.

AREA AND POPULATION OF TALUKAS.

1. The figures for the census of 1891 for the city by wards and for districts by Talukas are not available.

2. Owing to the general readjustment of districts between 1901 and 1911 the Talukas have undergone changes to such an extent as to render the figures for 1901 valueless for purposes of comparison. The process of adjustment of population to correspond with the present Taluka areas would entail labour quite out of proportion to the results. Hence the omission of figures for 1901.

3. The population of troops has now been correctly included in that of Chadarghat instead of in that of the city as was done in the last census.
