TABLE I.
AREA, HOUSES AND POPULATION.
BRITISH DISTRICTS.

1. The difference between some of the areas shown in this table and those given in the corresponding table of 1901 is due to territorial transfers. The figures now entered are those returned by the Survey of India and reported in the Tables of Agricultural Statistics of the Punjab for the year 1909-10. The transfer of the Sharakpur tahsil with an area of 888 square miles (Revenue Area) from Lahore to Gujranwala under Punjab Government Notification No. 677-S^{Home}_{General}, dated 18th June 1910, has affected the area of the two districts. Separate figures for Lyallpur and Jhang are not available in the Agricultural Statistics and have been worked out proportionately according to Revenue figures given therein.

2. There have been large inter-district transfers between Shahpur, Jhelum, Rawalpindi, Attock, Mianwali, Muzaffargarh, Montgomery, Jhang and Lyallpur, but the adjusted figures differ very little from those given in the tables of Agricultural Statistics (Survey) and consequently the standard figures noted therein have been adopted without alteration.

3. "Biloch trans-Frontier" is the hilly tract across the border of the Dera Ghazi Khan District proper. It is administered by the Tumandars (Tribal Chiefs) under the control of a Political Assistant to the Deputy Commissioner. The tract has not yet been regularly surveyed, but its area as communicated by the Superintendent Map Publication Office, Calcutta, is approximately 2,566 square miles. Figures for the Biloch trans-Frontier which were available only in the village Tables have been given separately in Tables I to VI only.

NATIVE STATES.

4. There has been no change in the area of the States during the past decade and the old figures have been reproduced, except in the case of Kanethi whose figures though not available in 1901 have now been taken from the Imperial Gazetteer.

NOTE.--The population statistics for tahsils will be found in Provincial Tables I and II at the end of the Volume.

TABLE II.

VARIATION IN POPULATION SINCE 1881.

1. In this table figures of the present census are compared with those of the previous censuses. The latter in some cases differ from the figures given in the old census reports. This is due to territorial changes during the last decade. Population of the areas transferred has been taken into account and the figures of the past censuses adjusted accordingly.

2. The total population of the Province in 1881, 1891 and 1901 has been increased by 159, 152 and 161 persons, respectively, on account of transfer of area from Saharanpur in the United Provinces of Agra and Oudh to the Karnal District during the past decade. On the other hand, a reduction of 56, 127 and 163 persons, respectively, has been made owing to transfer from

3. There have been changes of jurisdiction during the last decade in all the Districts except Rohtak, Gurgaon, Delhi, Simla, Kangra, Jullundur, Amritsar, Gurdaspur, Sialkot, Gujrat and Multan.

4. No census was taken in the Punjab in 1872, and consequently the columns relating to the census of 1872 have been omitted from the table.

TABLE III.

TOWNS AND VILLAGES CLASSIFIED BY POPULATION.

1. In this table as in Tables I and IV, Cantonments and Civil Lines have been treated as forming parts of the adjoining towns.

2. According to Revenue Records, the total number of villages in the British territory is 35,554 of which 2,004 are uninhabited. The total number of inhabited villages and towns according to this table comes to 33,560. The excess of ten over the Revenue figures is due to the following causes :—

<i>Increase</i>	72
	Due to areas outside Municipal or Cantonment limits being treated as separate rural units.					
<i>Decrease</i>	62
	(a), Due to 15 villages being included in 6 towns. The names of these towns do not appear in the Revenue Records, as each of them is made up of two or more villages					9
	(b), Villages lying within Municipal limits and being treated as part of the town					36
	(c), Civil Lines and Cantonments shown as separate units in Revenue Records but treated as parts of adjoining towns (<i>vide</i> paragraph 5, Chapter IV of Imperial Census Code, Part II)					17

3. Villages whose homesteads lie in one compact block so that no line can be drawn to distinguish the population of one village from that of the other were, at the time of enumeration treated as a single unit. In compilation, however, the total population of such villages has been divided equally between the component villages and each village treated as a separate unit.

4. The Revenue Mouza has generally been taken as a village except in the case of towns. In some of the Native States which have not been surveyed the unit for collection of revenue has been treated as a village.

TABLE III.—TOWNS AND VILLAGES

TABLE IV.

TOWNS CLASSIFIED BY POPULATION WITH VARIATION SINCE 1881.

1. The term Town in this table includes every Municipality of whatever size, Civil Lines (not included in a municipality), Cantonment, and every other collection of houses permanently inhabited by nearly 5,000 persons or more, which is of an urban character, though not under Municipal Government.

2. The question whether a collection of residential houses should or should not be classed under the last category was determined long before the Census, with reference to the probable population, and consequently in many cases the limit of 5,000 was not reached. On the other hand many places with more than 5,000 inhabitants were omitted, as they had no urban characteristics.

3. No attempt has been made to adjust the figures affected by the changes in the area of towns during the last decade, and the figures given in the previous census have been repeated. Certain areas excluded from and included in the Municipal limits of Amritsar, Rawalpindi, Muzaffargarh, Alipur, Jhang and Pathankot during the decade under review, have resulted in decreases and increases, aggregating according to the population of 1901, to 547 and 1,757 respectively. The limits of Murree, Maghiana, Batala and Gujranwala Municipalities have also been altered but the figures for the areas affected are not available.

4. Twelve towns with a total population of 77,811 persons have been added for the first time, while 64 places with a population aggregating 260,979 persons in 1901 and treated then as towns, have now been excluded from the list.

5. In the case of Sargodha (Jhelum Colony) and Gojra (Chenab Colony) now treated as towns for the first time, it has been found impossible to ascertain the former population. The population of 1881 and 1891 is also not available for the towns of Lyallpur, Kalka and Madhopur.

6. The summer population of the Hill Stations, Simla, Murree and Dalhousie as ascertained at the Summer Census held on 30th June 1911 is given below. For details see Part I (Report) :—

					Male.	Female.	Total.
Simla (including Jatogh)	28,459	9,436	37,895
Murree	12,999	3,935	16,934
Dalhousie	5,826	1,766	7,592

7. No Census took place in the Punjab in 1872 and consequently the columns relating to it have been omitted.

8. The abbreviations used in the table are :—

TABLE VI A.

SECTS OF MAIN RELIGIONS.

1. This is an entirely new table. Instead of dividing the columns of Table VI for sects as contemplated in the explanatory memo. attached to the Government of India Resolution No. 192-208, dated the 28th June 1910, it was considered advisable to have a separate table showing the sects of the four principal religions of the province, *viz.*, Hindu, Sikh, Jain and Muhammadan.

2. Figures are given separately in the table under each religion showing the number of persons who would from their sects appear to belong to some religion other than that returned by them.

3. The figures for minor sects in each religion have been thrown together under the head "Miscellaneous;" but the Provincial figures for each such sect have been detailed in the remarks column.

This table is divided into three parts. Part A is a summary of Part B and shows the distribution for the Province as a whole, for British Territory and for Native States, of the total population (all religions) and of each main religion, by age, sex and civil condition. 'Others' in this part comprises 653 Zoroastrians (396 males and 257 females) and 54 Jews (18 males and 36 females). Part B shows the distribution, for Districts and States, of the total population (all religions) and of the five principal religions (Hindu, Sikh, Jain, Muhammadan and Christian) by age, sex and civil condition. Part C gives similar details with the addition of figures for 'Others' (other religions which include Buddhist, Zoroastrian and Jew) for Cities and selected towns. Figures have been given in this part for the three cities and for only six selected towns having a population of over 50,000 each.

TABLE VIII.
(EDUCATION.)

1. This table which shows the extent of literacy is, like Table VII divided into three parts, namely:—

(A) showing figures for the Province as a whole by religions,

(B) giving similar figures for each $\frac{\text{District and State}}{\text{City and selected town}}$ for the main religions returned.

In parts B and C, religions showing small population in individual Districts and States have been omitted from those units.

2. Under the orders of the Local Government figures of literacy in the Vernaculars have been tabulated in the same form, but not being needed for Imperial requirements, they have been relegated, as an appendix to this table, to Vol. III, which should be referred to for the information in question.

3. In order to distinguish between Native Christians and Europeans and Anglo-Indians, etc., who are literate (and literate in English), the figures relating to Native Christians are given in the statement below. These when deducted from the figures given in the table within, for Christians as a whole will furnish statistics for European and allied races, Armenians and Anglo-Indians:—

TABLE IX.

EDUCATION BY SELECTED CASTES OR TRIBES.

1. In this table 58 castes have been dealt with. Of these 54 are such as contributed more than 2 *per mille* to the total population of the Province in 1901. The remainder are the four Criminal Tribes—Bawaria, Harni, Pakhiwara and Sansi. They did not contribute the requisite 2 *per mille* to the population, but the extent of their literacy forms an interesting study.

2. For the purpose of this table, the Province has been split up into three main divisions, *viz.*, Eastern, Central (comprising Hills and Plains) and Western Punjab. Eastern Punjab comprises the Delhi Division (save Simla) and the States of Loharu, Dujana, Pataudi, Kalsia, and Nahan. Central Punjab comprises (*a* Hills) the Simla and Kangra Districts, the Simla Hill States and the States of Mandi, Suket and Chamba, and (*b* Plains) the Jullundur and Lahore Divisions, together with the Districts of Gujrat, Lyallpur and Jhang, the Phulkian States and the States of Kapurthala, Faridkot and Malerkotla. Western Punjab comprises the remaining Districts in the Rawalpindi and Multan Divisions, together with the State of Bahawalpur.

3. Figures have been given for one or more of the main religions in the whole Province, and for one or more of the above divisions where the population of a caste or tribe falling under that category is considerable.

4. Separate figures for Arya, Brahma, and Dev Dharm, which for the purposes of this table are included among the Hindus, have been printed separately, for certain districts, as an appendix to table IX, in volume III, with a view to illustrate the literacy in those classes.

5. The excess of figures given in table XIII over those entered in this table is due to the inclusion under the main castes, of various sub-castes or synonyms which had been returned in the Enumeration books as Castes.

TABLE XI A.

DETAILS OF IMMIGRANTS OF CERTAIN CASTES TO THE CHENAB AND JHELUM COLONIES.

1. This table is designed to show the composition of the greater part of the immigrants, by castes, the tracts they have come from and the occupations they pursue. The table is divided into two parts, I.—Chenab Colony and II.—Jhelum Colony, containing separate sets of figures for each of the two colonies. The Chenab Colony comprises the whole of the Lyallpur and Jhang Districts, and the Hafizabad and Khangah Dogran Tahsils of the Gujranwala District. The Jhelum Colony consists of the Shahpur District excluding the Khushab Tahsil. In Part I, therefore, the Lyallpur, Jhang and Gujranwala Districts have been omitted from the districts of birth, and Shahpur has been similarly omitted from Part II.

2. The figures for an individual caste have been taken only from such districts as supplied more than 1,000 immigrants of that caste to the Chenab Colony and 500 to the Jhelum Colony, and details by religion have been given where more than 100 of a caste belonged to a religion, other than the main religion of the caste, in the Chenab Colony, the corresponding standard for the smaller Jhelum Colony being 50. The total of the entries for all the castes shown in the table under each district will not, therefore, equal the total immigrants from that district, nor will the total of entries for each caste necessarily represent the total number of immigrants of that caste into each colony.

3. The occupations selected are those which have attracted workers from castes other than those following their traditional profession. The smiths, Telis (Oilpressers) Chamars and Mochis (Curriers and Shoemakers) and Chuhras (Scavengers) largely follow their traditional occupations, which have not been shown in the table. Those that are not shown under the other professions may be taken as following their hereditary pursuits.

4. Very few females are raisers of farm stock, or money-lenders, in either Colony, and very few of them are shopkeepers in the Jhelum Colony. Under these heads no details by sex have been given. The entries may be taken to represent males except where notes have been made showing how many females are included in the figures. There are no female Government servants in either of the Colonies, nor are there any female Metal-workers or smiths and Carpenters in the Jhelum Colony.

TABLE XII A.

INFIRMITIES BY CASTES, TRIBES AND RACES.

1. This Table shows for the Province, as a whole, the number of persons suffering from infirmities in each Caste or Tribe. The figures for Christians have been given separately by Nationality.

2. Dual infirmities were not sorted for this Table, as was done in the case of Table XII, and consequently the total figures, in this Table, for each infirmity differ from the totals of that infirmity shown in Table XII, to the extent of the dual infirmities noted on the title page of the latter Table.

3. The figures exhibited in columns 2—4 have been taken from Tables XIII and XVII.

4. As the population dealt with in this Table is confined to those Castes only which have returned persons afflicted with infirmities, the Provincial figures in columns 2—4 will fall short of the Provincial total in Table VI to the extent of the population of those Castes in which no infirmities have been returned, plus the population of Zoroastrians and Jews, amongst whom there are no persons suffering from any infirmity.

5. As no economy in space could be effected by the omission of Castes returning only a few persons afflicted with infirmities, the figures for all castes returning infirmities have been shown in this table without exception.

TABLE XIII.
CASTE OR TRIBE.

1. Figures for Christians, Zoroastrians and Jews have been omitted from this Table as no castes are recognized in those religions. Details of Christians by nationality are available in Table XVII, and the figures for Zoroastrians and Jews are printed in Table VI.

2. Indian Christian converts generally omitted to return the name of their original caste. The few exceptions could not enable the preparation of lists of castes for that religion.

3. Where members of a caste belong to different religions, separate figures have been given for each religion, but where the numerical strength of a caste in any one religion falls below 20, the figures have been included either in the main religion of the caste, or in the total therefor, with a footnote to this effect.

4. To economise space, the following Castes have been grouped together under the head 'Minor':—

No.	Sub-Caste.	Males.	Females.	No.	Sub-Caste.	Males.	Females.

10	Jobá ...	1	...	22	Singikat ...	47	28
11	Kikan ...	17	17	23	Sodhán ...	54	38

5. The excess of figures given in this Table over those of Tables IX, XIV and XVI, is due to the fact that in the course of classification the figures for various sub-castes and synonyms returned in the Enumeration books as castes, have been added to the main castes. A complete list of all such names will appear in the Administrative Volume.

6. A few, such as Gázipuriá, Rab, Habshí, Lámazhab, Mahábat, Rathbáh, Sehjdhári, Zindkalián, &c., &c., whose proper classification appeared after enquiries to be uncertain, have been grouped together as "Unspecified."

TABLE XIV.

CIVIL CONDITION BY AGE, FOR SELECTED CASTES AND TRIBES.

1. The same 58 castes have been dealt with in this table as were selected for table IX.
2. The localities are the same as those of table IX, but in the case of certain castes, the figures for Administrative Divisions, and in some instances for Districts and States also, have been shown. Figures for main religions have been given in the manner set forth on the title page of table IX.
3. In column 1, the word " All " against the name of a caste stands for " All Religions."
4. Separate figures for Arya, Brahma and Dev Dharm, which for the purposes of this table are included among the Hindus, have been printed separately, for certain districts, as an appendix to table XIV, in volume III, with a view to illustrate the civil conditions in those classes.
5. The excess of figures given in table XIII over those entered in this table is due to the inclusion under the main castes, of various sub-castes or synonyms which had been returned in the Enumeration books as Castes.

TABLE XV.

OCCUPATION OR MEANS OF LIVELIHOOD.

GENERAL REMARKS.

The statistics of occupations are comprised in the following five tables :—

Part A.—General Table of occupations, showing for the Province, as well as for each District and State, the number of persons pursuing each of the occupations dealt with in the table.

Part B.—Showing the subsidiary occupations of Agriculturists (landlords, tenants and labourers).

Part C.—Showing the number of persons following selected subsidiary occupations combined with certain principal occupations.

Part D.—Showing, for the Province as a whole, the distribution, by religion, of all the occupations dealt with.

Part E.—Giving particulars regarding the industries carried on in the Province, and showing the number of factories in each District or State, the number of persons and the mechanical power employed, as well as the caste or race of the owners and managers.

TABLE XV.

PART A.—GENERAL TABLE.

1. The new classified scheme divides the occupations into four main classes, which are sub-divided into 12 sub-classes, 55 orders and 169 groups. This scheme has been adopted in this Table, instead of the classification observed at the previous Census.

2. This Table is complete in itself and deals with the whole population of the Province. It is made up of two parts, (1) the Provincial Summary which gives, for each occupation in the classified scheme, separate figures for the total population in (a) the Punjab, (b) British Territory, (c) Native States, (d) Cities and selected Towns; and (2) details for District, States, and Cities only, which shows the number of persons following each occupation in each District, State and City in the Province.

3. Groups Nos. 1, 2 and 4 relate to agriculture, so the column 'Partially Agriculturist' has been omitted from the headings of those groups at page 317.

4. Groups Nos. 29 (Persons occupied with feathers), 60 (Fish-curers), 65 (Toddy-drawers) and 141 (Navy) have been omitted from Part (2) of the table as no persons were shown as pursuing those particular occupations in the Province.

TABLE XV.

OCCUPATION OR MEANS OF LIVELIHOOD.

PART C.—SHOWING FOR CERTAIN MIXED OCCUPATIONS, THE NUMBER OF PERSONS WHO RETURNED EACH AS THEIR (1) PRINCIPAL, (2) SUBSIDIARY MEANS OF LIVELIHOOD.

1. This Table has been prepared for the following dual occupations which are pursued by a large number of persons. It was originally intended to enter in this Table only such occupations which were pursued by 2 *per mille* or more of the total population. But, on abstraction of statistics, it appeared that the best known dual occupations embraced much smaller numbers. The sets of dual occupations given below do not, therefore, fulfil the above condition, but are found in considerable strength. (A) Shepherd and (B) Blanket Weaver, (C) Grain Dealer and (D) Money Lender, (E) Cattle Breeder and (F) Milkman.

2. Figures have been omitted for those Districts which failed to return at least ten persons following one or other of the subsidiary occupations.

TABLE XVE.

STATISTICS OF INDUSTRIES.

PART I—PROVINCIAL SUMMARY—PART II—DISTRIBUTION BY DISTRICTS.

1. Part I of this table contains information regarding each kind of factory, mine, etc., in the Province as a whole, distinguishing between those factories in which mechanical power is employed (with description of the power used) and those in which it is not, and classifying them according to the number of persons employed (with detail of skilled and unskilled). The state of work in each class of factory has also been indicated. Part II gives the district figures for each industry without the details given in Part I.

2. The information contained in all four parts of this table was collected on a separate Industrial Schedule filled in by the owner or manager of each factory, quite apart from the General Census. The figures represent the state of affairs prevailing at 12 o'clock midday of the 10th March 1911.

TABLE XVI A.

DISTRIBUTION BY CASTE (ACTUAL WORKERS ONLY) OF CERTAIN GROUPS (OF OCCUPATIONS).

1. This Table is the reverse of Table XVI and shows the castes which pursue the particular occupations detailed below :—

GROUP No.	1.—Income from rent of Agricultural land.
„	139.—Army (Imperial).
„	140.—Army (Native States).
„	142.—Police.
„	143.—Village watchmen.
„	144.—Service of the State.
„	145.—Service of Native and Foreign States.
„	146.—Municipal and other local (not village) service.
„	152.—Lawyers of all kinds, including Kazis, law agents and mukhtiar.
„	153.—Lawyers' clerks, petition-writers, &c.
„	154.—Medical practitioners of all kinds, including dentists, oculists and veterinary surgeons.
„	155.—Midwives, vaccinators, compounders, nurses, masseurs, &c.
„	156.—Professors and teachers of all kinds (except law, medicine, music, dancing, and drawing) and clerks and servants connected with education.

2. The totals of the figures in each group do not come up to the corresponding figures shown in Table XV A. This is due to the exclusion from this table of the figures relating to religions other than Hindu, Sikh, Jain and Muhammadan.

3. All castes returning less than 50 persons under an occupation have been lumped together under the head "others."

4. Where members of a caste belong to different religions, separate figures have been given for each religion ; but where the numerical strength of a caste in any one religion falls below 10, the figures for that religion have been included either in the main religion of the caste (if the workers belong to only two religions) or in the total figures for that caste (if the caste is divided into more religions than two).

5. The abbreviations used in the table are :—

H.=Hindu.

S.=Sikh.

J.=Jain.

M.=Mubhammadan.

PROVINCIAL TABLE II.

POPULATION OF TAHSILS BY RELIGION AND EDUCATION.

1. Figures in columns 2-17 have been taken from the Village Tables and show details, by Tahsils, of the entries in Imperial Table VI. The distribution of persons who returned religions other than those specified in this table is given on the title page of that table (Imperial Table VI).

2. Figures in columns 18-23 (Literacy) for Tahsils do not include Christians and "Others" (Jains, Buddhists, Zoroastrians and Jews) except in Loharu, Pataudi, Patiala, Jind and Nabha States, and consequently do not work up to the District or State totals, which include figures for these religions as well. The slips for Christians and "Others" were not generally sorted by Tahsils for Imperial Table VIII (Literacy).

3. In Kalsia and Jubbal States the detail of literate persons was not available by Tahsils. Columns 18-23 have, therefore, been left blank.
