NOTE

The census enumeration was carried out in full according to plan but the Government of India decided to restrict the tabulation for British India. Consequently the tables in this volume cover less than half the contemplated range and offer in effect only the distribution of the population by community and by province or state, district, tehsil and town.

Opportunity has been taken however to sort wherever possible the 1/50 random sample taken in every area.

2. Not all the subsidiary tables for Bengal could be prepared. They were all in train when the Superintendent handed over, but a chapter of accidents intervened to prevent their completion and by the time the position was established the offices had been closed, the papers deposited and the staff broken up. The Census Commissioner for India was able to erect the more important subsidiary tables in his own office and the minor ones were dispensed with for the time being.

3. The slips in which the remaining unsorted information is to be found are stored in each province against a possible reopening of tabulation in happier circumstances.

I—AREA, HOUSES AND POPULATION

This table corresponds to Imperial Table I of 1931 and shows for divisions, districts and states the area, the number of houses and inhabited rural mauzas, and the distribution of occupied houses and population between rural and urban areas. Similar details for subdivisions and police-stations are shown in Provincial Table I.

2. The areas given differ in some cases from those given in the corresponding table of 1931. They are based on the figures supplied by the Government of Bengal. The province gained during the decade an area of 18·14 sq miles as a net result of transfers between Bengal, Bihar, Orissa and Assam, the details of which are given below :—

Districts of Bengal	Area gained by transfer		Area lost by transfer		Net gain to Bengal
	From	Area in sq miles	To	Area in sq miles	
1	2	3	4	5	6
All Districts ..	Bihar ..	18·92	Bihar, Orissa & Assam ..	0·78	+18·14
Midnapore	Mayurbhanj (Orissa) ..	0·25	—0·25
Murshidabad	Santhal Parganas (Bihar)	0·13	—0·13
Rangpur	Goalpara (Assam) ..	0·40	—0·40
Malda Santhal Parganas (Bihar)	16·72	+16·72
Dinajpur Purnea (Bihar)	2·20	+2·20

Details of the population at each census in the areas affected by these inter-provincial transfers are given in the title page to Imperial Table II.

3. Detailed particulars of the areas treated as towns and of the variation in their numbers since 1931 are given in Imperial Table V and Provincial Table I.

4. The total urban population for all Bengal is 5,954,406. This population is 9·69 % of the total population.

For every 100 persons living in urban areas there are 932 persons living in rural areas.

In the foregoing statistics the urban population is the total population of those towns cited in Imperial Table V, *excluding* those towns which have a population of less than 5,000. The population of these excluded towns has been included in the rural population.

II—VARIATION IN POPULATION DURING FIFTY YEARS

This table shows a comparison of the population recorded in 1941 with that for the same areas at previous enumerations. The details correspond to those contained in Imperial Table II of 1931, with the addition of figures for the variations by sex. The form of the table slightly differs from that of 1931.

2. Differences between the figures now given and those shown in the Census Reports for previous enumerations are due to inter-provincial and inter-district changes of jurisdiction. Adjustments on account of such transfers between 1891 and 1931 are incorporated in the figures given in the table of 1931. For the areas transferred during 1931—41 from the jurisdiction of one province to another or of one district to another the population has been ascertained or estimated for previous enumerations and further modifications made accordingly.

3. Inter-provincial transfers occurred in 1931—41 between Bengal and Bihar and Assam and resulted in a net gain to Bengal 1,546 persons (801 males and 745 females). Details are given below of these figures and of the consequent adjustment made in the figures shown in the table of 1931 for previous operations.

Districts of Bengal.	Population gained by transfer				Population lost by transfer			Total net gain to Bengal

Details of the additions made on account of the gain or loss by the above inter-provincial changes of jurisdiction in adjustment of the figures of population shown for 1891—1921 in Imperial Table II of 1931 are as follows:—

III—TOWNS AND VILLAGES CLASSIFIED BY POPULATION

This table corresponds to Imperial Table III of 1931 and shows the number and population of inhabited localities classified according to the size of their population. In the heading of the table the word "villages" has been used with reference to the rural population in order to make it consistent with the heading used for this table elsewhere in India. In most parts of Bengal, however, the rural population does not live in villages like those of other provinces of India and as on previous occasions the unit actually taken is the *mauza*, a division for administrative purposes which has now been made in all British districts as well as in Cooch Behar. The *mauza* is in general well understood by the people and the word has the sanction of common usage. The residential portion of the *mauza* most nearly approximates to a village in the ordinary sense in the Chittagong Hill Tracts. The figures given for *mauzas* in the Tripura State must be understood as referring to residential villages.

2. Column 22 gives figures only for the unclassified census population enumerated in separate census units.

The floating population in Calcutta is classified as follows :—

	Males	Females
Total	20,232	673
Boat-dwellers	1,784	..
Crews of inland steamers	11,508	..
Crews of coasting vessels	2,497	..
Others (including personnel of R. I. N.)	4,443	673

Street-dwellers and beggars are not included among floating population as they are more or less permanent residents in Calcutta. For interest their figures are given below. These figures are defective, as the authorities transferred a large number of vagrants outside Calcutta on the eve of enumeration, in connection with the arrangements initiating lighting restriction.

	Males	Females
Street-dwellers and vagrants	8,306	1,309

IV—CITIES CLASSIFIED BY POPULATION WITH VARIATIONS SINCE 1891

This table was intended for the classification of towns by population with variations since 1891, and would therefore have corresponded with Imperial Table IV of 1931. As a measure of economy, it has been restricted to cities.

2. Since 1931 the highly industrial municipality of Bhatpara has qualified for classification as a city.

3. Since 1931 the Garden Reach Area (with the exception of King George's Dock) has been separated from the jurisdiction of the Corporation of Calcutta. The population of Calcutta recorded at previous enumerations has therefore been adjusted to render it comparable with that enumerated in 1941.

V—TOWNS ARRANGED TERRITORIALY WITH POPULATION BY COMMUNITIES

This table mainly corresponds to Imperial Table V of 1931. The important difference is that classification by communities has been adopted instead of classification by religion. The implications and effects of this change are explained in the remarks which preface Imperial Table XIII and to them reference should be made. All that is required here by way of explanation is the reminder that tribal adherents of the religions of Hinduism, Islam and Christianity are not included in this table in the columns allotted to "Hindus", "Muslims" and "Indian Christians". Tribes are not separately shown in this table. They figure, along with other groups, in the columns allotted to "Others".

2. The presentation of figures for the Hindu community follows the same lines as in Imperial Table XIII, for the same reasons.

3. This table includes all the towns found in Imperial Table V of 1931, with the addition of thirteen new urban units whose characteristics entitle them to this classification. Cantonments and towns which are not municipalities are separately distinguished. For the purpose of deducing the urban population and the urban/rural ratio exhibited in the flyleaf to Imperial Table I, towns having a population of less than 5,000 were excluded. The towns having a population of less than 5,000 have been included in Table V of 1941 merely in order to facilitate a comparison with the same towns as exhibited in the same table of 1931.

4. The figures for cantonments include both military and civil population.

X (ii)—UNEMPLOYMENT BY AGE GROUP AND EDUCATION

This table was extracted at the request of the Government of Bengal and at their expense.

2. It exhibits the total number of unemployed persons (males only) who were enumerated in Calcutta and Howrah city.

3. The term "unemployed" denotes a person who has no occupation, and is genuinely seeking employment.

4. The unemployed have been divided into two age groups *viz.*, 16—25 and 26—40. The first group contains all unemployed who have attained the age of 16 but have not yet reached the age of 26. The second group contains all persons who have attained the age of 26 and have not yet reached the age of 41.

5. Each age-group is divided into two or more categories according to whether they have been seeking for employment for a period of less or more than one year.

6. Each of these divisions is further classified by the standard of education reached.

XI—LITERACY BY COMMUNITY AND AGE

This table was extracted at the request of the Government of Bengal, and at their expenses. It relates to British territory only.

2. The main communities are exhibited for each district. Tribal adherents of the various religions are included without distinction among tribes. The figures given for Hindus, Christians, Buddhists therefore exclude all members of tribes.

3. The population is classified into two age groups only *viz.*, those who have not yet attained the age of 21 ; and those who are 21 years of age or over.

4. "Literate" signifies the ability to write a letter, and to read the answer to it. All persons under the age of 5 have been classified as "illiterate."

XIII—COMMUNITY

This table takes the place of Imperial Table XVI of 1931. The important difference is that a classification of communities has been adopted instead of the old classification by religions. It should be noted that the figures for tribes include all members of tribal communities, no matter what their individual religion may be. The tribal figures therefore include a considerable number of persons who profess Hinduism, tribal religion, Buddhism, Christianity and Islam.

Conversely, the columns allotted to Hindus, Buddhists, Indian-Christians and Muslims give figures which exclude the tribal adherents of those religions.

2. The form of table adopted was intended to show a classification of Hindus by (a) Scheduled Castes; and (b) Others. A large number of Hindus failed to return their caste; and as this number includes both scheduled and other castes, correct figures cannot be furnished for the intended classification. Hindus are therefore shown in three categories—viz., (a) Scheduled Castes; (b) Caste not returned; (c) Others.

3. Arakanese Buddhists were separately extracted at the expense of the Government of Bengal. They were found in four districts only. The figures are given below:—

	Arakanese Buddhists	
	Males	Females
All Districts	159	90
Calcutta	26	9
Khulna	8	..
Darjeeling	2	..
Chittagong Hill Tracts	123	81

4. The Arya community paid for the extraction and printing by districts of the figures for members of the Arya Samaj. These figures are exhibited below. Similar figures for persons returning themselves as Brahmos are likewise given. These figures relate to British Territory and Tripura State only. The slips of Cooch Behar State were not sorted for individual castes. In Table XIII both Brahmos and Aryas have been included among Hindus.

5. Figures for British-born Europeans have been extracted. They are exhibited below by divisions, and separately for Calcutta:—

Calcutta (including the military area)	7,000	5,728

6. The distribution of tribes by religion is given below for two units, viz., (a) British Territory, (b) Bengal States. A number of tribes figure in the list of Scheduled Castes adopted for Bengal. For this reason, Hindu tribesmen have been distributed in two categories, viz., (i) Scheduled Castes, and (ii) Others.

PROVINCIAL TABLE I—AREA AND POPULATION OF POLICE-STATIONS

This table corresponds in form and detail to Provincial Table I of 1931. It gives the same information.

2. The areas of the various administrative units shown are taken from figures furnished by the Bengal Government. In many cases these figures vary from the areas shown for the same units in the corresponding table of 1931. No comprehensive explanation is forthcoming to account for all these changes, but it may be assumed that they are largely the result of changes of jurisdiction.

3. When an area has altered through a change of jurisdiction, the figures for previous decades have been adjusted to render them comparable with the corresponding figures of 1941.

**PROVINCIAL TABLE II—POPULATION OF DISTRICTS AND POLICE-STATIONS BY
COMMUNITIES**

This table corresponds to Provincial Table II of 1931, with three exceptions, namely (i) communities have been substituted for religions, and have been exhibited on the same principles as explained in the introduction to Imperial Table XIII; (ii) the literacy detail has been omitted as it was not extracted for police-stations; (iii) the detail for revenue thanas has been dispensed with, as it is no longer necessary for administrative purposes.

2. In 1931, figures for towns were separately given. These have been omitted in this table of 1941. Figures for towns by communities will be found in Imperial Table V.

SAMPLE TABLES

The Government of India have sanctioned only limited tabulation. This is confined to Tables I—V, XIII and XIV and Provincial Tables I and II.

2. Tables VI, VII, VIII, IX, X and XI have been prepared for Bengal on a random sample basis. The sample was arrived at by taking every fiftieth slip for Bengal including the States.

3. The percentage composition of the main communities according to Imperial Table XIII and Sample Table VII is given below :—

	Table XIII	Sample Table VII
Hindus	42·0	41·4
Muslims	54·3	54·7
Christians	0·3	0·3
Tribes	3·1	3·3
Others	0·3	0·3

The variation between the two is within 0·6%.

VI--BIRTHPLACE

For the sake of economy, this table has been restricted to the extraction of three categories only, namely, those born within the district of enumeration, those born outside the district of enumeration but within Bengal (including the States of Cooh Behar and Tripura) and those born outside the province. Otherwise, this table corresponds to Imperial Table VI of 1931.

VII—AGE AND CIVIL CONDITION

This table mainly corresponds to Imperial Table VII of 1931. It is in one part only, and shows communities and not religions. Tribal adherents of Hinduism, Buddhism and Christianity are shown among tribes.

2. For districts, figures have been given only for the total population.

3. Figures for divorced have been shown by sexes for the main communities only and in two age groups viz., 0—15 : 15 and over.

VIII—MEANS OF LIVELIHOOD

PART I—SUMMARY FOR ALL-BENGAL AND SIKKIM

PART II—PROVINCIAL DISTRIBUTION

The form of this table differs from that of Imperial Table X of 1931, by reason of a more detailed classification of dependency.

2. As a measure of economy, extraction did not proceed beyond the category of the class.

3. As agriculture is the main occupation in this province, the following groups [under sub-order (a)—Cultivation] were extracted—viz., Groups 1, 2, 6+7+9, and 8. Group 1 represents land-owners who live on rent from land but do not cultivate themselves. Group 2 represents Bhagdars and cultivators of similar status, the definition being a cultivator, who supplies his own plough, and cultivates land not his own, receiving in payment a share of the crop. Groups 6+7+9 have been combined and represent mainly the class of tenant cultivator known as rayats and korfarayats. It also includes persons holding zamindari rights who cultivate their land themselves, without the intervention of tenants. Group 8 represents all classes of agricultural labourers. The figures relating to these groups are given below for Bengal.

X—(i) UNEMPLOYMENT BY AGE AND LOCALITY FOR LESS (“LESS”) OR MORE (“MORE”) THAN ONE YEAR

(ii)—EDUCATED UNEMPLOYMENT

This table is in two parts. The first part gives the unemployed by age and locality, with a double classification according to whether the unemployed person has been seeking employment for more or less than a year. The second part distributes the same totals by selected age groups and standard of education.

2. The figures concern males only. Persons below the age of 16 and more than the age of 40 have not been extracted.

3. Only those persons were treated as unemployed who fulfilled both the following conditions, *viz* (a) having no occupation and (b) actually seeking for employment.

XI—LITERACY BY COMMUNITY AND AGE

This table corresponds to Imperial Table XIII of 1931. It shows the distribution by communities instead of religions.

2. The age groups are extended up to 50 and over.
3. All persons under the age of five are classified as illiterates.
4. Partially literates have been shown for the main communities only and in both sexes.
