INTRODUCTION

The Economic Tables for the 1951 Census are published in two parts. This part (Part II-C) contains the Economic Tables for the rural and urban population while Part II-B contains the Economic Tables for the general population. The following tables are published in this part :

Table B-I—Livelihood Classes and Sub-Classes.

Table B-III—Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions.

2. The Economic Tables prepared for the 1951 Census are based on the “Indian Census Economic Classification Scheme” for the 1951 Census. The “Indian Census Economic Classification Scheme” as given in the General Introduction of Part II-B applies to this part (Part II-C) also so far as the rural and urban break-up of the population is concerned.

3. This part does not contain Table B-II—Secondary Means of Livelihood, because Table B-II was not prepared for the rural and urban population separately as in the cases of Tables B-I and B-III.

TABLE B-1
LIVELIHOOD CLASSES AND SUB-CLASSES
(*RURAL POPULATION*)

This table shows the distribution of rural population by livelihood categories and classes as defined in the ' Indian Census Economic Classification Scheme '. Figures are given in this table for India, States and Divisions, Zones, Regions and Sub-Regions. Separate figures are given for Andaman and Nicobar Islands which is not included in any Zone, Region or Sub-Region and no figures for Chandernagore which is included in East India, Northern Plains Region and Lower Gangetic Plains Sub-Region, have been shown as it is an entirely urban area.

2. The total rural population of India where the 1951 Census was taken was 295,004,271. The total rural population according to this table is 294,810,628. There is a difference of 193,643. This difference is due to the following causes :

(i) Enumeration records relating to 205,246 persons were burnt in a fire which broke out in the Jullundur Tabulation Office,

(ii) In Bihar, 8,741 persons belonging to urban areas were treated as rural for this table, and

(iii) In Manipur State, 2,862 persons belonging to urban areas were treated as rural for this table.

TABLE B-1
LIVELIHOOD CLASSES AND SUB-CLASSES
(*URBAN POPULATION*)

This table shows the distribution of urban population by livelihood categories and classes as defined in the 'Indian Census Economic Classification Scheme'. Figures are given in this table for the same units for which figures are given in Table B-1 (Rural).

2. The total urban population of India where the 1951 Census was taken is 61,875,123. The total urban population according to this table is 61,817,684. The difference of 57,439 is due to the following causes :

- (i) Enumeration records relating to 45,836 persons were burnt in a fire which broke out in the Jullundur Tabulation Office,
- (ii) In Bihar, 8,741 persons belonging to urban areas were treated as rural for this table, and
- (iii) In Manipur State, 2,862 persons belonging to urban areas were treated as rural for this table.

TABLE B-III
EMPLOYERS, EMPLOYEES AND INDEPENDENT WORKERS IN INDUSTRIES
AND SERVICES BY DIVISIONS AND SUB-DIVISIONS

(RURAL POPULATION)

This table gives by sex the number of Self-supporting persons engaged in Non-Agricultural Occupations classified by Industrial Divisions and Sub-divisions according to economic status into (i) Employers, (ii) Employees and (iii) Independent Workers.

2. The census definitions of the terms Employer, Employee and Independent Worker were as follows :

Employer—A person who had necessarily to employ other persons in order to carry on the business from which he secured his livelihood. (Thus if a person employed a cook or other person for domestic service, he was not to be recorded as an employer merely for that reason).

Employee—A person who ordinarily worked under some other person for a salary or a wage in cash or in kind as a means of earning a livelihood.

Independent Worker—A person who was not employed by anyone else and who did not also employ anyone else in order to earn his livelihood.

3. The total number of persons deriving their means of livelihood from non-productive occupations and their break-up according to the means of livelihood is given in pages 50 and 51.

TABLE B-III
EMPLOYERS, EMPLOYEES AND INDEPENDENT WORKERS IN INDUSTRIES
AND SERVICES BY DIVISIONS AND SUB-DIVISIONS
(*URBAN POPULATION*)

This table gives by sex the number of Self-supporting persons engaged in Non-Agricultural Occupations classified by Industrial Divisions and Sub-divisions according to economic status into (i) Employers, (ii) Employees and (iii) Independent Workers.

2. The census definitions of the terms Employer, Employee and Independent Worker were as follows :

Employer—A person who had necessarily to employ other persons in order to carry on the business from which he secured his livelihood. (Thus if a person employed a cook or other person for domestic service, he was not to be recorded as an employer merely for that reason).

Employee—A person who ordinarily worked under some other person for a salary or a wage in cash or in kind as a means of earning a livelihood.

Independent Worker—A person who was not employed by anyone else and who did not also employ anyone else in order to earn his livelihood.

3. The total number of persons deriving their means of livelihood from non-productive occupations and their break-up according to the means of livelihood is given in pages 252 and 253.

Details of Persons Deriving their Means of Livelihood from Non-Productive Occupations
